

SECTION I

SUBJECT AREA AND COURSE NUMBER: RAD 103
COURSE TITLE: RADIOGRAPHY SEMINAR III
COURSE CATALOG DESCRIPTION:

LECTURE HOURS PER WEEK: First Six Weeks of Summer **CREDIT HOURS:** 3
LAB HOURS PER WEEK (IF APPLICABLE):
PREREQUISITES:

SECTION II

A. SCOPE:

RAD 103.01 Pathology

This course is designed to acquaint the student with abnormal anatomy and correlate the anatomical and radiological findings to determine proper patient care and technical factors.

RAD 103.02 Positioning III

This basic positioning and relative anatomy of the systems are learned. This course is designed to be correlated with RAD 107, and a continuation of RAD 103.02. Clinical competency performance evaluations are required.

B. REQUIRED WORK:

C. ATTENDANCE AND PARTICIPATION:

Pathology	.01	50%
Positioning III	.02	50%

D. METHODS OF INSTRUCTION:

E. OBJECTIVES, OUTCOMES, AND ASSESSMENT

LEARNING OBJECTIVES	LEARNING OUTCOMES	ASSESSMENT METHODS
To demonstrate an understanding of:	Student Will:	As measured by:
Biliary System		

F. TEXT(S) AND MATERIALS: (if required)

G. INFORMATION TECHNOLOGY: (if required)
