

SECTION I

SUBJECT AREA AND COURSE NUMBER: RAD 191
COURSE TITLE: RAD CLINICAL II
COURSE CATALOG DESCRIPTION:

LECTURE HOURS PER WEEK: T,R – 8:00-3:00 **CREDIT HOURS:** 2

LAB HOURS PER WEEK (IF APPLICABLE):

PREREQUISITES:

SECTION II

A. SCOPE:

The student will be assigned to the clinical site two days a week. All information taught in RAD 103.02 Positioning II will be enforced by hands on experience under the supervision of an R.T.(R). The clinical instructor will evaluate the progress of the student in performing x-rays of the pelvic girdle, ribs, upper torso and spine.

B. REQUIRED WORK:

C. ATTENDANCE AND PARTICIPATION:

Student evaluations in the clinical area will be done monthly by the clinical instructor, and the students.

The student will be evaluated by a Student Development Evaluation Form which will be worth 30% of the final grade.

Also, clinical competencies for the pelvic girdle, ribs, upper torso, and spine will be evaluated. A total of 10 successful clinical competencies are required by semester's end. The clinical competencies will be worth 50% of the final grade.

This course must be completed with a minimum of 90% average for continuation in the program.

D. METHODS OF INSTRUCTION:

The clinical instructor will instruct students on a day-to-day basis and will hold labs in the afternoons
