SECTION II

A. SCOPE:

The student will be assigned to the clinical site three days a week. All information taught in RAD 201 Positioning IV will be enforced by hands-on experience under the supervision of an RT (R). The clinical instructor will evaluate the progress of students in performing skull examinations and facial bones examinations.

B. REQUIRED WORK:

C. ATTENDANCE AND PARTICIPATION:

Student evaluations in the clinical area will be done monthly by the clinical instructor, and the students.

The student will be evaluated by Student Development Evaluation Form which will be worth 30% of the final grade.

Also, clinical competencies for skull exams and facial bone exams will be evaluated. A total of 12 successful clinical competencies are required by semester's end. The clinical competencies will be worth 50% of the final grade.

This course must be completed with a minimum 90% average for continuation in the program

D. METHODS OF INSTRUCTION:

The clinical instructor will instruct students on a day-to-day basis and will hold a lab on Thursday afternoons.
