COURSE TITLE: RAD CLINICAL VI
COURSE CATALOG DESCRIPTION:

LECTURE HOURS PER WEEK: 80 hours of clinical prior to graduation scheduled with clinical instructors
CREDIT HOURS:
LAB HOURS PER WEEK (IF APPLICABLE):
PREREQUISITES:

SECTION II

A. SCOPE: The student will spend a final summer session of eighty hours in the clinical setting. This session will enable students to concentrate on becoming proficient in all areas of radiographic positioning.

B. REQUIRED WORK:

C. ATTENDANCE AND PARTICIPATION:

Students will be required to successfully complete 7 clinical competencies. The seven competencies required include 3 remaining competencies and 4 final competencies. Upon successful completion of these competencies the student should have the required 55 comps for the program completed. Should the student be lacking in the required number of competencies, the student will be given an I (incomplete) until the required number are completed. The student will not be allowed to graduate until this final course, as well as all other program requirements, are satisfactorily completed.

D. METHODS OF INSTRUCTION: The clinical instructor will work individually with the students to address any areas which they feel they are not yet proficient in or in any areas they believe they need further help.
